I am 19 years old and I am a Software Engineering student at the University of Colima. With a technical degree in programming and a passion for software development, I specialize in web development, mastering both frontend and backend technologies. My goal is to offer innovative and efficient solutions while improving my technical expertise.

Volunteering

- UTEM 21/03/2023 - 21/06/2023
Professional Camino hacia las humedades, Salagua, 28869 Manzanillo, Col. Internships
UTEM
During my professional internship at the Technological University of Manzanillo (UTEM), I was responsible for various tasks, including inventory management and providing technical support to the university. One of my key contributions was developing a web-based **CRUD application** to streamline the management of university projects, showcasing my skills in web development and problem-solving.
